

# Silentium Comfort-Shell™

Every Sound Counts

## The Silentium Comfort-Shell™

### Noise cancelling shield creates a "Quiet Zone" in virtually any location

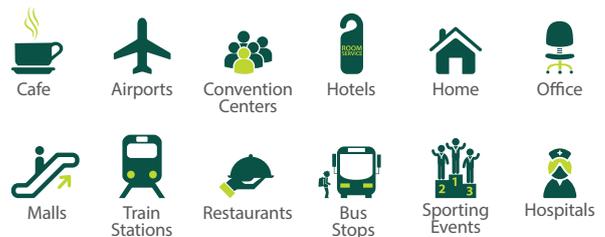

An important call. Preparing for a big exam. You look around but there is no quiet place. Unwanted noise is everywhere – whether you are at the bus stop, mall, hotel lobby or at home, intrusive noise seems to follow you. There are so many situations where you require a quiet environment to concentrate. Silentium's Comfort-Shell™ provides an innovative solution to the constant noise problem – a quiet zone where noise is reduced allowing for relaxed conversations, restful sleep and the ability to concentrate on whatever it is you want to do without distraction.

### "An Oasis of Quiet"

Silentium's Comfort-Shell™ is the evolution of Silentium's Quiet Bubble™ patented technology – a combination of active and passive noise control that cancels and reduces unwanted noise inside the space. The Comfort-Shell™ delivers personal sound control filtering out unwelcome external noise - creating a space for you to talk, relax, work or just play online. Silentium is the only solution that offers advanced noise reduction technology without headphones.

### A Variety of Applications...
